

# Touring the CIM Facilities at CSU, Chico on February 9<sup>th</sup>

Be sure and email [info@aci-ncawnv.org](mailto:info@aci-ncawnv.org) to sign up for the tour or indicate that when you make your ACI Chapter dinner reservations online at [www.aci-ncawnv.org](http://www.aci-ncawnv.org) Thank you!

We'll meet on campus at 3:30 in front of O'Connell Hall, indicated by the black arrow on the map below. That will give us time to tour the lab and walk over to the Alumni Glen project - one of the bigger projects that we did on campus. Parking is tough around campus. The attached map should help but best bet is on-street parking in general area. Parking garage next to O'Connell does have visitor spaces but availability is limited.

Looking forward to providing a glimpse of what the CIM program is all about on February 9!
